<u>Applying IFRS 9 Financial Instruments with IFRS 4 Insurance contracts</u>
--

The objective of this amendment is to address the temporary accounting consequences of the different effective dates of IFRS 9 and the forthcoming insurance contracts standard that replaces IFRS 4.

IFRS 4 is amended to provide two options as alternatives to fully adopting IFRS 9: (i) a temporary exemption that permits an insurer that meets certain criteria to apply IAS 39, rather than IFRS 9, for years beginning before January 1, 2021, and (ii) an overlay approach that permits any issuer of insurance contracts to reclassify amounts between profit and loss and other comprehensive income for certain eligible financial assets.

The amendments related to the temporary exemption are effective for years beginning on/after January 1, 2018. The amendments related to the overlay approach are effective when an entity first applies IFRS 9.
